2007 FIRST QUARTER TRADING UPDATE

Michael Page International plc, the specialist recruitment consultancy, reports first quarter gross profits of £105.4m, an increase of 33.2% over the £79.2m recorded in the first quarter of 2006.

In the UK, the most developed market in which the Group operates, first quarter gross profits were £44.1m, 20.4% up on the first quarter of 2006 (£36.6m). All specialist disciplines continued to demonstrate strong growth rates. During the first quarter we opened an office in Leicester.

In Europe, Middle East and Africa (EMEA), first quarter gross profits were £41.9m, 49.3% up on the first quarter of 2006 (£28.1m). In France, the largest business representing 34% of EMEA gross profits, growth was 21%. All the remaining countries grew at a combined rate of 70%. The new businesses we started last year in Moscow, Dublin, Johannesburg and Dubai are ahead of plan. During the first quarter we started a business in Luxembourg and opened our fifth German office in Hamburg.

In Asia Pacific, first quarter gross profits were £12.2m, 24.4% up on the first quarter of 2006 (£9.8m). In Australia we achieved growth in the first quarter of 11% (17% in local currency) and we are confident that we will continue to see further progress as the year continues. In Asia we achieved growth of 46% with Hong Kong and Tokyo performing particularly well.

In the Americas, first quarter gross profits were £7.1m, 54.6% up on the first quarter of 2006 (£4.6m). In the Americas we continue to invest in management as well as fee earners. In North America we opened our eighth office in Hartford and at the start of April, our ninth office in Atlanta. In Latin America, our business in Brazil continued its strong growth and the new business in Mexico is also ahead of plan.

During the first quarter the Group repurchased and cancelled 3.0m shares at an average price per share of 491.2p. Also during the first quarter 2.2m new shares were issued following the exercise of share options by employees.

Commenting on the first quarter trading, Steve Ingham, Chief Executive said:

"This has been an outstanding start to the year with strong growth from all regions and in constant currencies the Group's gross profits grew by 37%.

"We have continued our strategy of organic growth opening in Luxembourg and in existing countries by opening new offices and rolling out disciplines. As envisaged we increased our headcount as many teams around the world reached capacity and reacted by adding new fee earners. At the end of March, with EMEA well ahead of plan, we have approximately 4,100 staff.

"In all countries, without exception, we are currently experiencing strong levels of client activity against a backdrop of an increasingly common theme of a shortage of good quality candidates. Through the combination of our website, our biggest source of candidates, an internationally respected brand and a global database of candidates, we believe we can leverage our competitive advantage. As a result the outlook for Michael Page continues to be very encouraging."
